

THOMAS HÜBNER
APPLICATION

Application Letter

Hey, my name is Thomas Hübner, I am 26 years old and I believe to be the right person for you. I am passionate about music and creativity and would love to work with you.

Ever since I was a kid I wanted to make music. I first started learning the accordion when I was 7 years old and fell in love with it. Later on I taught myself to play the piano and shortly after that I wrote my first song dedicated to the wedding of my brother.

My journey went further on and brought me to Australia where I finally learned how to write songs professionally. As I came back to Germany my first intentions were not to study anything more related to music as all my german people were saying: " How about you study something that gives you some financial stability"? But I guess I couldn't help myself and got into Music Production at Abbey Roads Institute in Berlin which indeed was the greatest decision I could have made.

I graduated in October 2020 and have been working on my own projects since then. During my studies I had hands on recording sessions with bands and a string orchestra. As well as I recorded two of my own songs at Blackbird Studios last year.

I consider myself a person that runs the extra mile, that loves the challenge and works responsible to the goal of perfection.

That is why I would like to apply for the role as an Audio Intern at Colors Studios Berlin and can start immediately. My expectations regarding the salary is to earn 12-15€ an hour.

If you are interested reach out to me via mail or give me a call, I'd be happy if you do so.

Thank you for the opportunity.
